

NSW Health support available for Audiometry nursing

Audiometry nursing

Subject code: 241

Available as GC in Advanced Nursing/CPD Distance Education

Pre-requisite N/A

This subject is designed to facilitate the development of the audiometry nurse's understanding of the hearing process and client assessment. Content covered within this subject includes the anatomy, physiology and pathology of hearing, alterations to hearing, assessment and monitoring hearing. The subject is designed to meet the needs of audiometry nurses working within a variety of settings and caring for clients across the lifespan. There is a compulsory online component for this course.

Prescribed texts: Kramer, S. 2008 Audiology: Science to practice. 1st edn, Plural Publishing, San Diego.

Clinical issues in audiometry nursing

Subject code: 242

Available as GC in Advanced Nursing/CPD Distance Education

Pre-requisite: 241 Audiometry nursing

This subject is designed for nurses working in the audiometry setting. The focus of this subject is on integration of theory to practice and the competencies required to work as an audiometry nurse. Concepts covered include communication, professional standards, patient education and hearing promotion. This subject involves the completion of 90 theoretical hours and 60 hours of clinical practice.

Prescribed texts: Kramer, S. 2008, Audiology: Science to practice. 1st edn, Pleural Publishing, San Diego, CA.
