

Mark your calendars for the:

Murdoch Midwifery 2010 Seminar Series

**Peel Education Campus
Mandurah**

- ❖ **Preparing Parents for Childbirth and Beyond**
Friday, March 26th
Interested in Antenatal Ed? Come along and find out what parents want to know and how to provide this important information in new and exciting ways
- ❖ **Midwifery Management of Perinatal Emergencies**
Tuesday, May 25th
Safeguard the safety of mothers and infants by learning about the latest research based practices and updating your emergency management skills and knowledge
- ❖ **Mental Health Challenges- Optimizing Maternal Well Being**
Friday, September 3rd
Maternal emotional and psychological distress has important implications for maternal and infant health. Learn what you can do to understand women at risk and improve maternal mental well being during the perinatal period
- ❖ **Breastfeeding: What is the evidence-based care?**
Tuesday, November 9th
Myths and “traditional wisdom” often form the basis for the breastfeeding information we provide to potential and new mothers. Learn how to address breastfeeding problems using evidence based care.

Update your knowledge on a wide range of essential areas and earn professional development points

Each full day seminar: \$120
Full time students: \$60

Attend all four seminars and only pay half price for the 4th seminar
